Environmental Policy Sub Tech Contracts Ltd

Approved by John Cannon on 6th January 2020.

A paper copy of this policy is kept at Head Office.

An electronic copy of this policy can be obtained by request from Head Office.

A copy of this policy has been made available to the persons listed below, who are responsible for circulating this policy as appropriate to interested parties.

Employees, Clients, Sub Contractors, Suppliers and the public.

Sub - Tech Contracts Ltd has ensured that it remains legible and is fully identifiable.

This policy will be reviewed quarterly.

This policy should be considered as part of a set of policies that include:

- Our Health and Safety and Quality Assurance Management Systems

Definitions

For the purposes of this document, the following terms apply:

Senior management is defined as the directors, officers and senior managers of the organization.

Environmental aspects are the elements of Sub - Tech Contracts Ltd activities, products and services that can interact with the environment.

Environmental impacts are the changes to the environment that result from Sub - Tech Contracts Ltd environmental aspects.

Policy Statement

Sub - Tech Contracts Ltd acknowledges that the environment can potentially be impacted by any of its activities, products and services. This policy sets out how the organization will manage, monitor, measure and otherwise be accountable for its ongoing environmental performance.

In the implementation of this policy, Sub - Tech Contracts Ltd will adhere to the following laws and requirements:

- WEEE Regulations

Sub - Tech Contracts Ltd is committed to prevent pollution wherever possible and will ensure that as well as optimising new products, services and processes to facilitate this prevention, existing systems and processes are reviewed in order to identify areas for pollution prevention. For each product, service, system or process, this will be achieved by:

- eliminating the use of polluting materials or technologies;
- reducing the use of polluting materials or technologies;
- recycling or reusing materials within Sub - Tech Contracts Ltd;
- recovering useful materials from waste streams;
- treatment of waste streams and emissions to reduce their environmental impacts;
- transferring materials or waste outside of Sub - Tech Contracts Ltd; for recycling or reuse; and,
- where no other option is available, controlled disposal or incineration.

Sub - Tech Contracts Ltd will integrate environmental management procedures, processes and planning with the general operations of the organization to maximise the potential reduction of the organization's environmental impacts.

Sub - Tech Contracts Ltd ensure that where possible, products are designed and developed in such a way as to reduce the environmental impacts of their users.

Through the use of environmental performance evaluation procedures and key performance indicators, Sub - Tech Contracts Ltd will seek continual improvement in its environmental performance. This will be achieved through the proper implementation of its environmental management system. The design, development and management of the environmental management system, related procedures and

Sub Tech Contracts Ltd (Issue 1: 06-01-2020)

indicators are the responsibility of senior management.

Through the implementation of this policy Sub - Tech Contracts Ltd will set a leading example of good environmental management for its industry.

It is the responsibility of John Cannon to ensure that this policy is implemented throughout the organization.

It is the responsibility of John Cannon to ensure that this policy is properly maintained and up to date.
